

CLOCKWISE CREDIT UNION

After over 10 years of dedicated service by the team of volunteers it has been decided by the Market Harborough Management Team , in liaison with the Leicester Head Office ,to discontinue the local Community and Information Point as from the end of March.

The reason for this is the lack of demand. This is seen to be mainly due to the increasing use of the internet and developing ways of handling cash.

The setting up of a local Credit Union was proposed and sponsored by Harborough Churches Together and was launched in 2006. Initially it was quite busy.

All are urged to continue membership and support of this members owned community project in every way possible, personally and in recommending and referring any who may wish to support or who has a need for financial help. Clockwise is a fair and convenient way of providing this service, including savings and loans; with the money remaining local.

The Common Bond (area covered) of Clockwise is Leicester, Leicestershire and Rutland. If those of us who have who have invested in shares or ISAs (relatively good interest rates) continue (Market Harborough and Area is relatively very good) Clockwise will continue to have the funds to continue it`s work.
